

MISSION RULE

HIDDEN SUPPLIES

Reconnaissance units have uncovered a hidden cache of ammunition, fuel and rations in this war zone.

When Drawn: If you also drew The Ritual Primary Mission card, discard this Mission Rule card and draw a new Mission Rule card.

In the Place Objective Markers step, players must set up one additional objective marker in No Man's Land.

Before setting up this new objective marker, players must first move the objective marker in the centre of the battlefield 6" directly towards one of the corners of the battlefield (if No Man's Land touches any of the corners of the battlefield, you must move the objective marker towards one of those corners). Players then set up the new objective marker 6" from the centre of the battlefield towards the diagonally opposite corner of the battlefield to the previously moved objective marker.
